**Product Details**

<b>Description:</b>	Specification grade multiple module fixture that allows you to combine varying lamp wattage, beam patterns, and aiming from module to module within the same housing. These versatile luminaires are the perfect solution for better retail and commercial applications where high performance and maximum adjustability are important.
<b>Housing:</b>	Housing is die formed 20 gauge steel with black abrasion resistant powder coat paint finish. Four black hex head philips screws attach the housing to frame. The housing is slotted to adjust to variable ceiling thickness.
<b>Frame:</b>	Frame is 16 gauge steel with two built in universal hanger bar brackets, one located on each end. Large J-Box attached to frame has seven 1/2" knockouts. Luminaire system thermal protector located on junction box
<b>Trim:</b>	Decorative white finish trim with two torsion springs or trimless option available.
<b>Housing Dimensions:</b>	2 X 2 = 9 3/8" L x 9 3/8" W x 4" H. Total height with module(s) is 9 1/4".
<b>Listings:</b>	UL & CUL Listed. Non-IC Rated. Listed for Branch Wiring. Thermal Protector located on junction box meets NEC, UL and CSA requirements.

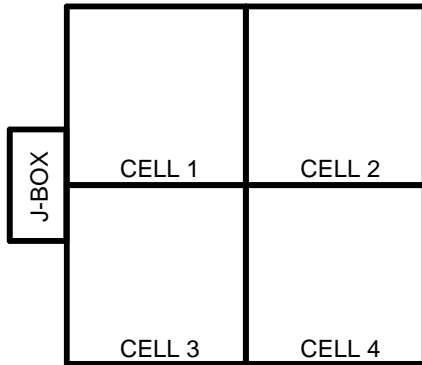

**Specification Features**

- Trimless option allows the fixture to blend into the ceiling.
- The 4" housing accepts MR16 module types.
- Universal hanger bar brackets allow the luminaire to be used with all new construction ceiling types.
- 2 year W2 Architectural Lighting product warranty.
- Contact factory of dual-circuited and special configuration options.

**The full catalog number for the precision module consists of ordering information for both the housing and module selection.**
