Ordering Example (model number – part number – finish): SRK-X18-WT

Power Feeds			
<p>Flat ceiling Power Feed (Rigid Suspension):</p> <p>SRK-X18-color SRK-X24-color SRK-X36-color SRK-X48-color</p>		<p>Sloped Ceiling Power Feed (Rigid Suspension):</p> <p>SRK-XS18-color SRK-XS24-color SRK-XS36-color SRK-XS48-color</p>	
<p>Description</p> <p>Kit consists of a ceiling canopy, down rod and track slider. Canopies come with hardware to mount to either a junction box or ceiling surface. Drop grid ceilings require T-Bar clips. Rod allows power feed wires (up to three 12 gauge wires) through the center, and supports the weight of the track. Rods should be positioned over a power component</p> <p>Available in Brushed Nickel (BN), Black (BK), or White (WT).</p>		<p>Description</p> <p>Kit consists of a ceiling canopy, down rod, swivel adapter and track slider. Swivel adapters allow suspension rods to drop straight from a sloped ceiling. Adapter is installed between the canopy and down rod.</p> <p>Available in Brushed Nickel (BN), Black (BK), or White (WT).</p>	
<p>Cable Suspension Power Feed:</p> <p>SCK-TC-BK SCK-TC-WT</p>			
<p>Description</p> <p>Canopy and cable kit used to suspend Linear System track from a ceiling or elevated surface. The kit comes with 48" of wire and may be field cut to any length.</p> <p>Available in Black (BK), or White (WT).</p>
